

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

Robot Farming Expansion	League	Participation	Construction
	Junior/ Challenge	1 Person	1 Robot
Standard			Pre-made

1. Game Description

It aims to cultivate field and plant trees by moving a block based on the mission using the humanoid robot. It will be conducted by 1:1 tournament and game management strategy and robotics controlling ability for quick mission complete. **This game is played face-to-face only.**

2. Robot

2-1. Types of robot Humanoid

2-2. Composition of robot

2-2-1. Production All robots must be pre-made before the competition, and no extra time for producing robots will be given on site.

2-2-2 Motor Following motors are only allowed to use.

Manufacturer	Motor type	Motor Specification.
Robots	AX-12A(AX-12+)	12.0V / 1.50Nm / 59rpm / Cored / TTL

2-2-3. Use of parts All certified parts of the models KITs are allowed to use freely (sensor, motor, etc.)

2-2-4 Size of Robot

<Size Rule>

2-3. Power

2-3-1. Autonomous movable independent power must be used, and combustion engine is not allowed to use.

***Arbitrary usage of the regulation may be held liable for copyright infringement.**

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

2-3-2. Under 13V only allowed

2-4. Operation

2-4-1. It should be an articulated two-legged walking robot without linking structure.

2-4-2. While standing, both feet should not cross each other.

ex

<While robot is standing, feet should not cross like above.>

2-5. Program and control

2-5-1. Both robot moving itself and moving by remote controller are allowed.

2-5-2. Communication control specification

2-5-2-1. Only Zigbee /Bluetooth /2.4Ghz wireless are allowed.

2-5-2-2. Smartphone are allowed to be used as a remote controller, but airplane mode must be turned on all the times.

2-5-2-3. Cable-based control is not allowed.

2-5-2-4. If problem in communication happens and the change in the channel is impossible, the participant(team) will be disqualified.

2-6. Spare robot

2-6-1. Robot preparation The participant may have a spare robot other than the main robot, and both robots must be certified to the referee before starting.

2-6-2. Usage of spare robot Changing to the spare robot is allowed when referee certified before starting the competition.

3. Competition site

3-1. Official competition site Playfield approved by International Robot Olympiad Committee.

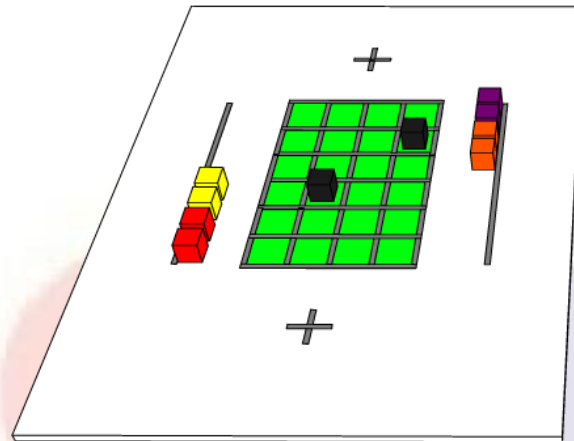

*Arbitrary usage of the regulation may be held liable for copyright infringement.

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

3-2. Size and composition The size of playfield has to be 160cm X 120 cm ($\pm 10\%$) and uses one playfield each.

<Example>

3-2-1. Allowable range of error in the stadium The slope less than 2° ($\pm 10\%$) and a gap or bump less than 0.3cm ($\pm 10\%$) is allowable.

3-2-2. Prevention robot from falling There will be no special structure to prevent robot from falling.

3-2-3. Distance between fields Distance between two playfields are within 50cm.

3-3. Playfield Covered with a white sheet paper, and there may be an advertisement or a logo of the host.

3-3-1. Mission map

3-3-1-1. Field 4 x 6 square checkers with 7cm x 7cm each (error $\pm 10\%$) will be placed.

3-3-1-2. Tree Will be placed on the line located 20cm apart from the field.

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

<Example>

3-4. Playfield adjuncts

3-4-1. Block

3-4-1-1. Shape a hexahedron

3-4-1-2. Weight under 100g (error $\pm 10\%$)

3-4-1-3. Size 5cm x 5cm x 5cm (W x L x H, error $\pm 10\%$)

3-4-1-4. Type Four types of block

- 1) Red block: Apple tree
- 2) Orange block: Orange tree
- 3) Yellow block: Mango tree
- 4) Purple block: Grape tree
- 5) Black block: Stone

3-4-2. Fire cone and water cone Cone made in malleable PVC. 8cm x 8cm (D x H, error $\pm 10\%$), weight 15g (error $\pm 10\%$)

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

<Example of Water cone and Fire cone>

4. Competition progress

4-1. Way of game process Game is processed by recording, and the chances are given twice. Rectifying time will be given between chances.

4-2. Robot production and practicing time At least 2 hours will be given for practicing, and will be noticed on the day.

4-3. Assignment of playfield Depends on number of participants and level of difficulty.

4-4. Practicing Participant can practice on the playfield until practicing time noticed, but cannot before playfield assignment.

4-5. End of practicing When time for modifying and practicing finishes, the participant must stop the robot and go back to their seat following staff and referee's instruction.

4-6. 1st trial 1st trial starts right after the practicing time (or after lunch).

4-6-1. Preparing competition All participants must bring their robots and wait in line following the instruction of staff and referee.

4-6-2. Stand by after competition All participants should not go back to their seat, but must wait in line after their trial until all participants finishes their trial.

4-7. Modification Time for modification will be given to all participant after 1st trial for robot modification and practicing. Modification time will be noticed on the day.

4-8. 2nd trial 2nd trial will be held right after the modification.

4-8-1. Preparing competition All participants must bring their robots and wait in line

*Arbitrary usage of the regulation may be held liable for copyright infringement.

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

following the instruction of staff and referee.

4-8-2. Stand by All participant must go back to their seat after their trial.

5. Match

5-1. Performing of the mission The participant should move block to cultivate field, and plant tree to complete cultivating filed based on the mission given on the day.

- 1) Cultivating field: Remove stones and grasses to stone disposal place and grass disposal place.
 - Location and size of the disposal area will differ based on mission.
 - When moving stone and grass to the disposal area, points will be accepted when placing inside the black line. (Points will not be accepted if the block is touching the line.)
 - Disposal area will be printed in A4 sheet and attached to the mission map.

<Example of Disposal Area>

- 2) Planting tree: Move tree blocks based on the mission
- 3) Fire extinguishing: Cover water cones over fire cone

5-2. Point

- 1) Cultivating field: 2 points per removing stone, 2points per removing grass
- 2) Planting a tree: 1 point per tree.

***Arbitrary usage of the regulation may be held liable for copyright infringement.**

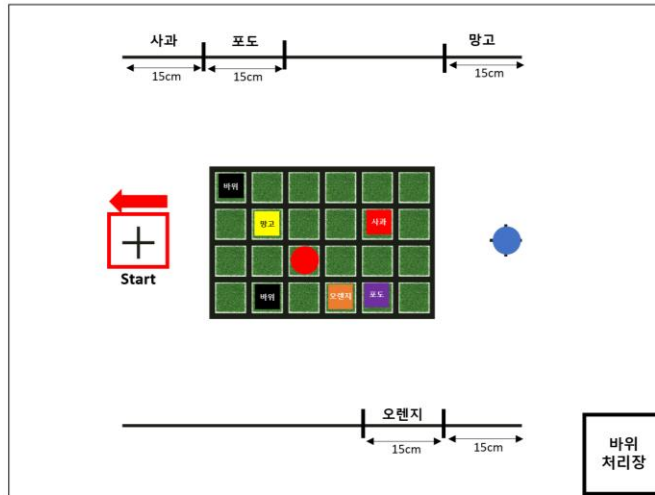

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

3) Fire extinguishing: 2points per covering water cones over fire cone

5-3. Mission open Missions will be noticed on the site before the competition starts as a mission paper.

2023 국제로봇올림피아드 한국대회 본선
로봇파밍 익스펜션

총 점
11

*** 1점 미션**

1) 사과, 포도, 망고, 바위
: 각 과일당 1점

*** 2점 미션**

1) 바위
: 바위 처리장으로 이동

2) 화염콘, 소화콘

화염콘 위에 소화콘을 덮으면 2점
(단, 화염콘 터치시 -1점, 소화콘으로 화염콘을 터치시 감점 없음)

*** 본 미션지는 대회가 종료될 때까지 일부로 가지고 나갈 수 없습니다.**

Example of mission

5-4. Usage of block

- 5-4-1. Robots are allowed to be transported and used freely even if blocks fall off the field.
- 5-4-2. No part of the robot shall touch the flame cone. If you touch it, you get a deduction.
- 5-4-3. Fire cone must be covered with water cone to be considered mission success.
- 5-4-4. Score will not be accepted if fruit is not placed in position.
- 5-4-5. Score will not be accepted if fruit is not on the line.

<Range of Cube Success>

5-5. Start Start by referee's start sign.

5-5-1. Miss start Announced when the robot starts before starting sign of referee, and the game will be started again.

***Arbitrary usage of the regulation may be held liable for copyright infringement.**

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

5-5-2. Restart One chance will be given per game. If miss start happens twice per game, the participant will be disqualified.

5-6. Limited time The total competition time is maximum of 2 minutes.

5-7. Decision of competition

5-7-1. Called game If the participant completes the mission in a given time, the game ends. Final point and time record will be acknowledged.

5-7-2. Time over If robot doesn't clear the mission in the limited time, the points at when time limit finishes will be accepted as a record.

5-7-3. Robot stop If robot doesn't move or move the same place repetitively during the competition, referee gives 10 counts. If the robot doesn't move again while counting, robot stop will be declared, and the points when robot stops will be accepted as the record.

5-8. Game over due to disqualification

5-8-1. Robot touch If the participant touches robot without acceptance of referee or staff, robot touch will be declared, and the participant will be disqualified

5-8-2. Robot modification while competition Adding, removing, exchanging or modifying component of the robot during the competition is not allowed, and if holding extra components, tool, or battery while waiting in order to modify the robot, the trial will be disqualified.

5-8-3. Defaulting assigned playfield If playing or practicing at the playfield other than the assigned field, the participant will be disqualified.

5-9. Rematch When accident such as blackout or trouble in timer happens, rematch may occur by a decision of referee.

5-10. Decision of referee Referee has authorization to control all situations and participants at all times during the competition. Judgement of the competition is referee's own authorization and referee has the authorization for final judgement.

6. Evaluation

6-1. Recording items Mission points and time record

6-2. Target mission record Referee counts the numbers of completed missions after declaration of end of game.

***General Rule:** Check the general rule before reading this game rule. Please be aware that the general rules apply equally to all events during the competition.

***Attention:** Please be aware that this is a provisional version of the rules, there may be some changes. Especially, since the size and weight of the testing material are still on progress, there may be new updates.

6-3. Time record Time counted at the timer after clearing the mission will be acknowledged as the time record.

6-4. Final record Better record among 1st and 2nd trial will be considered as the final record.

6-5. Priority of record

Target mission point > Comparison between time record

6-5-1. Priority on trial If tied at the same trial, record of another trial will be compared.

6-5-2. Priority when tied

- 1) Better score among 1st or 2nd trial will be acknowledged, but when tied, the participant with better score on the 1st trial takes the priority.
- 2) If tied, followings will be considered to pick a winner.

Number of succeeded Fruit harvest > Number of succeeded Rock Disposal >

Number of fire cone extinguishment
